## Disaster Risk Financing and Insurance Program

The World Bank Group's Disaster Risk Financing and Insurance Program (DRFIP) helps developing countries manage the potentially high cost of natural disasters and climate shocks. DRFIP is a joint effort by the World Bank's Finance, Competitiveness and Innovation Global Practice and the Global Facility for Disaster Reduction and Recovery. DRFIP provides analytical, advisory, convening and financial services to over 60 countries worldwide to support the development and implementation of comprehensive financial protection strategies against climate and disaster risks. If you would like to join our Disaster Risk Finance (DRF) Community of Practice, please sign up today by scanning the QR code to receive our monthly Community of Practice newsletter, which provides relevant research, impact stories and information on upcoming events. The Disaster Risk Finance Community is a global community of over 6000 practitioners coming together to curate knowledge and share best practices in the field of Disaster Risk Finance.

## Financial Protection Academy

If you would like more information on the learning and training programs, or would like a custom learning event, please find more information [here](#) at Financial Protection Academy.

Financial Protection Academy aims to help vulnerable countries shift from being crisis responders to becoming proactive risk managers through a suite of capacity building programs worldwide.

## Financial Protection of Public Assets – Resources

**Financial Protection of Public Assets - A Practitioner's Guide for Public Officials:** The guide outlines the steps required to design, develop, deliver and operate effective financial protection of public assets, particularly through risk transfer and insurance. It draws upon case studies from within and outside the Association of Southeast Asian Nations (ASEAN) region to illustrate the key issues commonly encountered when designing and implementing financial protection measures. [Link here.](#)

**E-Learning:** An upcoming e-learning program provides introduction to the topic of financial protection of public assets and offers an overview of the steps to set up financial protection measures.
